We Abhor the Call for Ethnic Cleansing made by the so-called Genocide Watch.

We the members of the Union of Tigreans in North America /UTNA/, categorically condemn and castigate the irresponsible and reprehensible statement made by none-other than Dr.Gregory Stanton, who unashamedly called on the proud Ethiopians of Tigray origin to dissociate themselves from the current regime, lest face the consequences at a latter day.

Needless to say, the people of Tigray, and indeed the entire Ethiopian people, who are determined to install a democratic and constitutional order on the ashes of the unjust systems of the past which they relegated into the museum of history through their concerted hard won struggle, have currently charted out in Unison a National Growth and Transformation Vision to make poverty, history in the not too distant future.

This move will certainly seal all possible loopholes for intervention by the likes of the so-called Genocide Watch who stand to benefit from such lucrative acts of uncalled intransigence. We thus in no uncertain terms, utterly detest the arrogant and shameful declaration as an affront to the people and a blatant interference on the sovereignty of our country, Ethiopia and call upon Dr.Gregory Stanton to retract his recklessly insulting and repugnant statement calling for ethnic cleansing and ask for an open apology publicly.

We would like to reiterate and ascertain that the time tested unity of the Ethiopian people can't be tampered with by such evil machinations and blind and sweeping generalizations and the unhindered and continuous superfluous appeals for the annihilation of an entire people made by the self-acclaimed boss of the so-called Genocide Watch.

The narrative of his shameful acts of inciting violence in some countries in the past, clearly attest to the fact that contrary to his claims as a watchdog of human rights, his organization is a merchant of death and strife, which profits from violence and the suffering and death of innocent men and women under the guise of genocide watch.

It is abundantly and glaringly clear from the outset that the so-called Genocide Watch, in effect watches over a genocide mill by profiting from the bloodbath privately, while publicly shading crocodile tears.

Entertaining such acts of provocation and their unwarranted championing will have a dangerous ripple effect of supplying a go ahead signal for the prophets of doom and gloom.

We call upon all other genuine organizations who sincerely and honestly strive to unmask and bring to justices all transgressors of human rights, to expose such turncoats and renegades like the so-called Genocide Watch and its sibling, the notorious Human Rights Watch amidst them, who clamor to be more catholic than the pope, to refrain from their unholy acts of instigation by playing into the hands of some fringe elements of all hues and stripes.

It is high time that Genocide Watch is bluntly told to stop its pretence and meddling, and to stand for the respect of human rights, while in reality it is a wolf in sheep's clothing, fully engaged in producing havoc, mayhem and tribulation by preaching its satanic verses, which serve it as a dossier for its profitable business venture.
